

Nathaniel Joseph

Frontend Developer

Abuja, NG • nathancodes05@gmail.com • + (234) 7061-4331-38 • [Portfolio](#) • [LinkedIn](#) • [GitHub](#)

SKILLS AND TOOLS

- Technical Skills: JavaScript, TypeScript, React.js, Next.js, React Native, Ionic, Vue, Nuxt, Zustand, Redux, Node.js, Nest.js, Express.js, MySQL, PostgreSQL, MongoDB, Supabase.
- Certifications: HNG 11 Finalist (2024) - [Verify](#). Proficiency in Frontend Development (2024) - [Verify](#)

PROFESSIONAL SUMMARY

Full-stack developer with 4+ years of experience building fast, accessible, and user-friendly web apps. Skilled in React, Next.js, Nest.js, and TypeScript. Known for clean code, smooth UI implementation, and strong collaboration. HNG 11 Finalist, currently working on real-world projects that make an impact.

PROFESSIONAL EXPERIENCE

RUNWAE	Remote, US
Mobile Developer	Jan 2026 - Present

- Architected and scaled a high-performance cross-platform mobile ecosystem using React Native and Expo, maintaining a unified codebase that cut development overhead by 40% while ensuring native-level performance on iOS and Android.
- Spearheaded the end-to-end UI/UX strategy, bridging the gap between design and engineering to implement fluid, accessible interfaces; resulted in a 60% surge in user retention and a significant increase in Day-30 engagement metrics.
- Established CI/CD pipelines and automated testing suites for the mobile stack, reducing deployment cycles from days to hours and ensuring 99.9% crash-free sessions for the founding user base.

EVOOLV	Remote, NG
Frontend Developer	Nov 2025 - Feb 2026

- Defined and led the UI/UX engineering standards, establishing a reusable component library and design system that streamlined the handoff between design and development, resulting in a measurable lift in user conversion and engagement.
- Engineered complex API orchestration layers, utilizing Postman for rigorous contract testing and documentation; successfully integrated mission-critical third-party services that expanded platform capabilities and automated core business workflows.
- Optimized frontend infrastructure by implementing advanced state management and CI/CD workflows, ensuring a type-safe, maintainable codebase that supported rapid feature iteration during the high-growth founding phase.

9LIVES	Remote, US
Mobile Developer	AUG 2025 - Jan 2026

- Scaled a high-performance cross-platform mobile ecosystem using React Native and Expo, maintaining a unified codebase that accelerated time-to-market by 40% while ensuring native-level fluid performance across iOS and Android.
- Spearheaded the end-to-end UI/UX strategy, bridging the gap between product vision and technical feasibility to implement accessible, high-fidelity interfaces that drove a 60% surge in user engagement.
- Integrate APIs and third-party services via Expo, enabling features like speech transcription, boosting functionality.

EXAMCRUSH
Frontend Developer

Remote, NG
JUL 2025 - Aug 2025

- Refactored and modernized legacy codebases, reducing technical debt by 20% and enhancing scalability.
- Introduced end-to-end automated testing with Vitest, cutting QA time by 30%.
- Led performance optimization efforts, resulting in a 35% increase in user engagement and 20% faster load times.
- Collaborated with backend developers to integrate real-time updates and personalized user data delivery.

BRANDDRIVE
Frontend Developer

Hybrid, NG
OCT 2024 - Mar 2025

- Deployed robust form handling using React Hook Form, reducing form bugs by 40%.
- Worked closely with the product team to deliver high-fidelity UI from Figma prototypes.
- Built interactive dashboards and modals with ShadCN UI and Zustand, boosting task completion by 20%.
- Created dynamic filtering and search functionality with React and TypeScript, enhancing data accessibility by 25%.

HNG TECH
Frontend Developer

Remote, NG
JUL 2024 - Oct 2024

- Mentored teams to deliver frontend features for 1000+ users in 8-week sprints, achieving goals.
- Delivered product updates in collaboration with cross-functional teams using GitHub Projects.
- Wrote unit and integration tests to achieve 90% test coverage on critical components.
- Improved accessibility across 25+ screens to meet WCAG 2.1 AA standards, resulting in a 100% Lighthouse accessibility score.

SELECTED PROJECTS

DELVE (AI LANGUAGE LEARNING PLATFORM) **Next.js, Firebase, Zustand, Three.js**

- Implemented AI-generated conversation simulations for vocabulary practice.
- Built a progress-tracking dashboard and dynamic lessons based on learning history.
- Collaborated in a distributed team to deliver features on a weekly sprint cycle during HNG internship.

HNG BOILERPLATE

Open Source Frontend Starter

- Built and documented reusable components and design patterns.
- Integrated linting, formatting, and best practices for rapid onboarding.
- Adopted by multiple teams during the HNG internship for faster setup and consistent code quality.

LOVLA

React Native, Expo, Supabase, Zustand

- Built the mobile application using Expo and React Native, ensuring cross-platform compatibility for iOS and Android.
- Implemented an interactive coloring canvas with touch gestures, allowing users to select colors, fill regions, and draw freely.
- Designed and developed a clean and responsive UI optimized for mobile devices.
- Integrated a color palette system with customizable color selections.

EDUCATION

NATIONAL INSTITUTE OF INFORMATION TECHNOLOGY (NIIT)
Diploma in Frontend Development

Abuja, NG
FEB 2023 - Sep 2024
